1 STEP

MEET OUR TEAM

Whether you suffered a fall or trauma, or underwent surgery, you need to select a first-class rehab center that will follow your surgeon's specific protocol. At Coral Harbor we do just that!

- **Our Benefits Specialists** will review your coverage plan and payment options.
- **Our Rehabilitation Team** will provide an overview of your anticipated treatment plan and what you can expect in your recovery.
- **Our Physiatrist** will closely monitor your care as you progress through therapy.
- **Our Discharge Planning Specialist** will assist you with planning your discharge from day one of your stay.

Our ultimate goal is
to get you home in a safe
and efficient manner.

2 STEP

ORTHOPEDIC TRANSITION & INITIATION

Our trained professional team will assure a seamless and comfortable transition from the hospital while getting you started on your journey back home as quickly as possible.

Depending on the time of your hospital discharge and arrival to Coral Harbor, you can expect a same day visit from our therapy team to make an initial assessment.

Your rehabilitation plan will quickly get moving with morning and afternoon multidisciplinary therapy sessions. Depending on your medical condition and stability, the average estimated program stay is 5 days or less.
